**Kaiser Permanente has lost its way.** They've abandoned their mission to serve our communities in favor of earning massive profits and enriching top executives. Kaiser executives are demanding unprecedented cuts to caregivers' pay and benefits and raising rates on patients.

This Labor Day, let's show our support by rallying with other patients and healthcare workers statewide to protect good, local jobs, families, and communities!

**Be sure to bring your loved ones! This is a family-friendly celebration** — Let's unite with fellow patients and community members, healthcare workers, and elected leaders to hold Kaiser accountable!
